and what have you

by BOB CRAIG

Well, we made it through another year, didn't we? I don't know how much better we made the world during 1963 but at least it doesn't seem to be any worse. In this day and age that seems to be a pretty good accomplishment in itself.

As we go from one year to the next and from one world crisis to the next it sometimes seems that things never looked more bleak than at the moment, but when we look at it from a longer range we can usually see that it is no worse than it has been before.

No one knows what major crisis will face this nation during the coming year but what ever it may be will probably be no worse at the moment as they interfere with our day to day more or less carefree way of life.

Probably the two biggest problems facing the world today and America particularly — as the free world's leader — is worldwide trade and Human Rights.

Since it is obvious that these would not be major problems if they were simple cut and dried issues with easy answers you can get about as many answers to these problems as they are people to ask.

Both of these issues affect different people in different ways — the man whose prices are being hurt by imports does not see the problem the same way that one whose product must find new markets.

The biggest difference of opinion in this country today is probably in the matter of trade with the communist world. Like a lot of people we used to think that it was foolish to feed and supply your enemies, but after thinking about it we can see that probably our only hope is to trade with them.

We seem to have two choices with this problem, we can take the attitude of some and try to starve them out or we can help them to share in the abundance that we as a nation enjoy.

The biggest obstacle with trying to starve them out is that if we hurt them enough through restricted trade their leaders will get to the point that they will see only two avenues left for them, surrender or fight for the things their people want and need. And if their people are hungry they will fight.

It is somewhat like trying to back a dog into a corner and then trying to make friends with him — it is a good way to get bitten.

It is no wonder that we have trouble finding the answer to this question when we haven't found the answer to trading with our own friends and allies.

The problem with competing on the world market is the great difference in the standard of living between our country and the most of the rest of the world. We can no longer hold back the progress of the balance of the world just to maintain our standard of living and this seems to be what so many want to do.

We must help to raise the standard of living world-wide and in the process some in this country may have to lower theirs to the point where they are producing enough food to justify their income. This is a problem that unions seem to forget.

Many people seem to blame this import and export business for most of our unemployment problems. This, we do not believe, is the case. One of the major causes of our unemployment is again that too many people are not producing enough goods to justify their income and by doing this they force prices up to the point that they hurt the market and eliminate jobs. Another cause of unemployment, and this has a similar background, is the confused attitude of so many in what they do not want to go to the trouble of training for a profession or skill, they seem to prefer to live off their fellow citizens.

NEINDA PHILOSOPHER NOT MAKING ANY PLANS FOR '64, HAS PLENTY FROM PAST YEARS

Editor's Note: The Neinda Philosopher on his Johnson grass farm on Route 1 has entered a new year about like he left the old one, his letter this week indicates.

Dear editor:
Now that I've got a new calendar and can plainly see we're into 1964. I was sitting by the fire last night wondering if I shouldn't be making some plans for the new year, but I called it off.

I don't need any more new plans, I've got plenty left over from the last 12 or 15 years I haven't used yet.

Most people plan from the wrong end of the year, they

plan ahead while you can be a lot more accurate if you plan back. I can see now a lot clearer what I should have done last January than I can what I ought to be doing next December.

Oh I could make some detailed plans for this Johnson grass farm for the next twelve months all right, but how do I know what the unfolding international situation will do to them? A man can feel awkward trying to plug up holes in his own fence when the leaders of world are arguing there ought to be more holes opened in the Berlin wall. Patching holes willy-nilly is no longer a sound practice. The world is a delicately balanced outfit and a man has to be careful what he does. It used to be that whether a man got on his tractor and plowed was of absolutely no concern to anybody but himself, but have you ever stopped to think of the international repercussions plowing can have? Some hard-pressed country on the other side of the world will hear about it

and say, Look at him, plowing away to make another crop to add to the surplus and make us feel worse. And right when Washington was trying to gain their friendship.

Before I rush headlong into plowing in 1964 I'm going to think long and hard on what effect it'll have internationally. You're not going to catch me jumping on my tractor and upsetting the balance of world power.

I don't know what sort of year 1964 will be, but I have a notion it'll be about like all the other years that have gone before, and it seems to me most people have found them interesting enough to look forward to some more.

Yours faithfully,
J.A.

Top Stock Secured For Fort Worth Stock Show Rodeo

Fort Worth (Sp1) — W. R. Watt, president-manager of the Southwestern Exposition and Fair Stock Show, is continuing with the successful combined producer arrangement pioneered with the 1963 Fort Worth Stock Show Rodeo.

Tommy Steiner-Hoss Intman and Associates will produce the 1964 Fort Worth Rodeo. The four producers represented in Steiner-Hoss and Associates had a total of 51 animals selected for the National Finals Rodeo at Los Angeles in November. Contestants at the National Finals, the World Series of professional rodeo, select all the bucking stock to be used in the rodeo.

Headlining the 1964 rodeo stock at Fort Worth will be six Canadian bucking horses recently purchased by Steiner. The horses, now located at Steiner's X-S Bucking Stock Ranch near Austin, will make their first United States arena appearance at the Fort Worth Rodeo.

Canadian Godfriedson, previous owner of the sextet, says the horses made quite a reputation for throwing respected Canadian cowboys not just once, but as much as three or four times a day.

The horses to look for at the Fort Worth Rodeo are: Rattlesnake, War Cloud, Scrap Iron, Firefly, Lookout and Skimiken John. Godfriedson, who is part Indian, explained Skimiken John means "over the hill" in Indian lingo. The horse got the name from always being "over the hill" at round-up time.

COLUMN—

—Continued from Page 1—

low man rather than put out this much effort. The man who makes a real good living working 32 hours a week has helped create this attitude, there just are not enough of these gray trains to go around.

All of this of course is a problem of human rights as well as world trade.

Probably the hottest problem facing this nation in the coming year will be the one of civil rights. The really sad part of this situation is that it is a problem in a country that is supposed to be a Christian nation and founded on the belief that all men are equal.

How can we say all men are equal and then deprive 10 per cent of our people of the right to vote, the right to an education, and the right to any job that they are qualified for?

Both of these problems are not just problems for the rest of the nation to solve, but the people of Hamlin must be a party to the answers.

Our agriculture products, our oil products, our livestock products, all are effected by what is done in dealing with the problem of world trade. Naturally we would like to export all of our goods to gain better markets and better

prices but at the same time realize that some goods must come into this country to create the money and the markets for some other goods and it may be that this will affect one or more of our products.

In the matter of civil rights here at home we will soon have to face the problem of education. We can continue to operate separate schools for only a short time. Not because somebody up in Washington says we can't but because we

can not afford too, and give any where near an equal education to the Negroes of our community. The way to solve this problem must be found by the people of Hamlin.

Rev. and Mrs. Fred Brown of Turkey, Texas visited friends in Hamlin Monday and Tuesday.

Mr. and Mrs. Bob Craig visited in the home of her parents, Mr. and Mrs. T. P. Fincher of Fort Griffin Christmas Day.

You have 639 muscles in your body. You can exercise and develop them for life-long health and vitality. Or you can live lazily and grow fat or flabby. And possibly become a premature victim of diseases of the heart and blood vessels.

There isn't a shadow of a doubt that physical well-being at all ages depends to a great extent on regular activity or exercise. But there's so little incentive to exercise now—what with push buttons and sedentary pastimes—that flabbiness begins in early childhood.

Yet, more than half of our children do not get at least 15 minutes of planned, vigorous, body-building activity during each school day! Consequently, nearly one-third of them can't meet minimum standards for strength, agility and flexibility.

The development of physical fitness—for all boys and all girls—should begin early in life.

What about the physical education program in your child's school? Is it planned mainly for students interested in varsity sports? Or is it geared to the development of average boys and girls—those most in need of physical conditioning?

The President's Council on Physical Fitness urges you to take as much interest in this phase of your child's development as you do in his academic development. Work with your school officials and community groups to establish a program that emphasizes vigorous activity daily. Bringing up youngsters with strong, agile bodies is essential to their future—and the future of our country.

To help you evaluate the program in your school, the President's Council on Physical Fitness will send you a free booklet. The address is Washington 25, D.C.

CREATION...

ISN'T IT AMAZING
... Scientists say that there are no two snowflakes alike! How many snowflakes do you suppose there have been since the beginning of time? Billions? It staggers the imagination when one thinks of all the things that God has created from nothing.

Genesis, the first book in the bible means beginning. It tells of many of God's more major creations, and how He created all these things for the benefit of man. Attend church, study God's word and learn more of God's plan for man.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

JEANNETTE GREEN AND TOMMY BROWN EXCHANGE VOWS HERE

The home of Mr. and Mrs. Carl Green was the scene of the wedding of their daughter, Jeannette, to Tommy Jay Brown, son of Mr. and Mrs. J. E. Brown.

The double ring ceremony was read by Rev. John Ferguson, pastor of Faith Methodist Church at 7:30 p.m. Dec. 20. Mrs. Dan Gallagher presented wedding music.

The bride, given in marriage by her father, wore a street length dress of white embossed satin fashioned with fitted bodice, three quarter length sleeves, and around neckline enhanced with seed pearls. She carried a cascade arrangement of white feathered carnations and a white orchid atop a white lace Bible. For something old she carried a handkerchief made by her great-grandmother, the late Mrs. Charles Campbell of Oklahoma.

Mrs. O. E. Railsback of Vernon, aunt of the bride and Don Poe Brown, brother of the bridegroom, were the only attendants.

Mrs. Elmo Painter and Miss Paula Kim served during the reception which followed.

For a wedding trip to Shreveport, La., the bride wore a blue two piece suit with small blue hat and black accessories. Her corsage was the orchid from her bride bouquet.

The bridegroom was graduated from high school here in 1963 and is now attending Ranger Junior College, Ranger.

The former Miss Green attended Hamlin High School where she was a majorette.

The couple will reside in Ranger where both will continue their studies.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Pres. Lyndon Johnson's holidays would exhaust most ordinary mortals. The President arrived in Austin on Christmas Eve, his homecoming delayed by a congressional crisis over the \$3,000,000 foreign aid bill. Abandoning his announced schedule he went to the Governor's Mansion for a 30-minute visit with Gov. John Connally.

Stopping his party's helicopter at a ranch of another close friend, A. W. Moursund, the President joined Moursund in an hour deer hunting, before he finally got home to hang up his Christmas stocking. There he spent a happy time with his family and relatives and numerous close friends.

Christmas Day at the LBJ Ranch also found the President confronted with problems. He expressed concern over the fighting in Cyprus, penned messages to Greek and Turkey Cypriot leaders and General Cemal Gursel, President of the Republic of Turkey.

Then he took newsmen on a tour of his ranch, handed them ashtrays as presents, and explained a cut he had just ordered in federal employment.

All this he did before settling down to his Christmas dinner and the opening of pres-

ents under the tree.

Before dawn the next day, he and former Gov. Buford Ellington of Tennessee left "The Little White House" on a deer hunt. Both bagged bucks.

The President was back at the ranch house, working in his office, before noon and conferred with Secretary of State Dean Rusk by telephone, repeatedly, on the Cyprus crisis.

Later, he named a nine-member committee of experts to evaluate foreign economic and military aid programs and recommended how to strengthen them.

In doing his home work for the important Erhard visit, Johnson conferred in person with these distinguished government officials at the ranch: Secretary Rusk, Under Secretary of State George W. Ball, Special Ambassador Christian Herter, Agriculture Secretary Douglas Freeman and McGeorge Bundy, special assistant for national security affairs.

Theodore Sorensen, special White House counsel, was summoned to assist in preparation of the new President's first state of the union message. It will be delivered before the Congress on January 8.

Thomas C. Mann, assistant secretary of state for inter-American affairs, and John A. McCone, Central Intelligence Agency director, were among others called to confer with the President, in addition to regular staff members.

Press members from Washington and foreign countries, as well as the native Texans of the State capital beat, were invited back to talk and eat with the President on Friday.

In addition to official talks, there was a program of fun for Chancellor Erhard, a portly ex-professor. He toured Fredericksburg, home of many German-speaking Texans, and attended church at Bethany Lutheran Church there Sunday. More than 200 turned out for a barbecue luncheon honoring the Chancellor at the Stonewall High School gymnasium three miles from the ranch.

When Erhard departed, Johnson turned immediately back to the national budget and went into a huddle Monday with Defense Secretary Robert S. McNamara and the joint chiefs of staff.

So it went as the President wound up his "holiday" and prepared to return to the regular schedule in Washington.

PRESS COVERAGE — For many years, Austin's stately Driskill Hotel has been President Johnson's home away from home. Now it is the home away from home for some 75 to 200 news reporters. They "cover" the White House, whether it is on the Potomac

of the Pedernales.

The Crystal Ballroom, usually the setting for brilliant Christmas and New Year's balls, has been a working pressroom during the 1963 holiday season. The "Press Center" covers the hotel's mezzanine and extends to quarters occupied by White House Press Secretary Pierre Salinger and his staff.

In the Driskill, the press corps waits for word of cuts in federal employment, the President's luck at hunting, statements on Cyprus and on repercussions from his meeting with Chancellor Ludwig Erhard of West Germany.

At times, the news from Johnson's LBJ Ranch near Stonewall is delivered via a "press pool", in which four reporters are assigned to represent all their colleagues. Other times, the whole corps is bundled into buses for the trip to the ranch over U. S. 290 and the newly-designated Ranch Road No. 1.

Some of the press-center set-up will remain intact in the Driskill Hotel for presidential visits in the future. This may be for the next year, or the next five years, or, perhaps, the next nine years, according to voters' reactions to the news that this army of reporters turn out.

ANIMAL HEALTH APPOINTMENTS — During his convalescent period in the Mansion, Governor Connally picked two new members for the Texas Animal Health Commission to succeed Dr. Robert Hartman of Victoria and George Apple of McKinney.

New commissioners are Dr. J. Ray Martin of Coleman and C. E. (Ed) Knoll of Sandia. Dr. Martin, a graduate of the Veterinarian School at Texas A&M, has practiced veterinary medicine in Coleman since 1946.

Knoll is co-owner of Knoll's Jersey Farms in Jim Wells and Nueces counties. A university ex-student, he is past president of the Texas Jersey Cattle Club.

SCHOOL DROP-OUTS — During the holidays Governor Connally has been Texas' second biggest newsmaker (secondly to President Johnson). He stirred a lot of interest when he turned attention to what is considered by many to be the state's first problem: school drop-outs.

Connally asked the Texas Education Agency to develop a plan for district programs to help local districts find solutions to the drop-out situation. He described it as "one of our most severe educational and economic problems."

According to the Governor, "Last June, Texas high schools graduated only 87,640 of the 193,032 first-graders who entered school in 1951. Nearly 59,000 dropped out before reaching the 9th grade and 59,000 left between the 9th grade and graduation."

Connally quoted a Texas Employment Commission prediction that by 1965, the nation will have three young people without high school diplomas chasing after every two jobs available to them, while there will be only five high school graduates available for every seven jobs requiring that much education.

LOAN OFFICES LICENSED — Regulatory Loan Com-

missioner Frank Miskell issued a total of 1,630 licenses to be displayed by consumer credit companies which make loans up to \$1500. Licensing was the first major step under Texas Regulatory Loan Act which went into full effect on December 21.

All of these licensees — ranging from a single lender in New Boston to a 60-office Family Finance chain — now will be under state supervision. A lot of "loan sharks" who could not, or would not, meet the new state requirements were flushed out by passing of the law.

Loan lobbyists estimated earlier in the year that there were 2,200 loan offices in the state, but only 1,895 filed letters of intent to file application for a license. Then some 265 never followed their letters with applications.

Commissioner Miskell refused to license 30 applicants, and nine of these have suits against the state pending in

federal and state courts. SLANT - HOLES SUMS RECOVERED — Atty. Gen. Waggoner Carr announced the recovery of \$110,000 from two defendants accused of slant-hole oil well operations.

Of this, \$10,000 was recovered from G. M. Jordan of Kilgore, following a judgment entered by 53rd District Judge Herman Jones, and \$100,000 from J. G. Walker of Tyler, charged with operating wells illegally.

Carr said the money will be placed in the State Treasury.

MOTORISTS WARNED — Col. Homer Garrison Jr., director of the Texas Department of Public Safety, issued a special warning to car owners that tough NEW amendments to the Texas safety responsibility law become effective on January 1.

Amendments require that drivers prove their ability to pay damage to others in traffic accidents. All accidents resulting in \$100 or more dam-

age, injury or death must be reported in writing to the DPS within 10 days. Accidents not involving death or injury and resulting in as much as \$25 in damages also must be reported. But these do not come under the safety responsibility law.

Minimum requirements are \$10,000 covering liability for one person; \$20,000 for two or more persons; and \$5,000 property damage. Otherwise they must estimate financial responsibility, if they are at fault.

Suspension of licenses and registration will be for a period of two years unless requirements of the safety responsibility act are fully met.

SHORT SHORTS

Texas public cafeterias will serve 2,400,000 pounds of chicken in months ahead. This is Texas' share of 50,000,000 pounds bought by the U. S. Department of Agriculture with school lunch funds.

O. J. McCullough, Houston

tool manufacturer, has applied Association for the Advancement of a charter for the Nationalment of White People.

For a child or an adult to achieve properly and efficiently they must have good vision. Only a vision specialist giving a thorough examination can determine your visual needs. A thorough examination takes time.

Donnie Sawyers, daughter of Mr. and Mrs. A. R. Sawyers. She attends Lubbock Christian College.

Each year the classes in Old Glory School compete in a door decoration contest. This year all of the doors were outstanding and offered a good variety of Christmas themes.

The Sophomores won the high school contest this year with their well-decorated replica of the Christmas carol, Joy to the World. The craftsmanship of the winning door was extremely well done. Second place door was the Seniors' entry of a red Christmas package on a red and silver background.

The grade school was won by Mrs. Beil's 1st and 2nd

grade room. Then manger scene, with figurines and angels was presented against a blue background with soft blue lighting. The 7th and 8th grade door won second with a colorful door showing Santa, an outdoor Christmas tree, and a mailbox.

Judges for the contest were Mrs. Henry Pumphrey of Old Glory, Mrs. Lue Boldaz and Mrs. Courtney Robinson of Aspermont.

Mr. and Mrs. John McGowan and children of Knox City spent Christmas Day in the home of her parents, Mr. and Mrs. Adelbert Suter.

Guests in the home of Mrs. Katie Gerloff for Christmas were Mr. and Mrs. Raymond Gerloff of Abilene, Mr. and Mrs. Jackie Gerloff of Odessa, Ronnie Gerloff, Mrs. Pauline Fuqua, Mr. and Mrs. Wayland Fuqua all of Stamford, and Mrs. Emma Gerloff.

Grandma Suter has been hospitalized as a result of a fall in the home of her daughter.

Mrs. Nehring, in Haskell, X-rays revealed no serious injuries and she should be able to leave the hospital soon.

Mr. and Mrs. Jack Simmons and four boys of Fort Worth visited during the holidays with her parents the Beno Hertenbergers.

Visiting with Mr. and Mrs. Dobe Robinson and Nancy during the holidays were Mr. and Mrs. Bill Bell and family of Lovington, N. Mex. and Mr. and Mrs. James Robinson of Stratford and S. F. I. R. D. and Mrs. R. D. Robinson from Washington, D. C. and also Mr. and Mrs. Delma K. McGary of Stamford.

During the holidays the V. R. Leveretts entertained Mr. Ray C. Leverett of Abilene and Mr. Ray Patterson of Petrolia.

The 1964 March of Dimes Campaign for Stonewall County will be largely in the hands of teen-agers. Directing the campaign will be Brenda Dalby for Aspermont, Carolyn

Sander for Old Glory and Perry Workman for Peacock. Judy White is county teen-age chairman.

"Teenagers have the desire to help the helpless and the enthusiasm to raise money to finance it" according to Judy White. "Teen-agers are urged to contact the director of your area or if the director contacts you, give them all the help you can."

"We teen-agers often see people our own age suffering from some kind of crippling disease" Judy said. "This gives a great incentive to work for a program like the March of Dimes which is doing something to help improve the future of birth defect and arthritis victims."

"Many March of Dimes-financed treatment centers where thousands of children and teen-agers are already benefiting from improved techniques of treatment are found throughout the United States. Effective January 1, 1964 two

new March of Dimes Chapter Supported Special Treatment Centers will be added to serve the State of Texas, a Birth Defects Center at John Sealy Hospital in Galveston and an Arthritis Center at Texas Children's Center, Baylor University Medical School, Houston, Texas.

"Of special interest to teen-agers in Stonewall County," Judy stated, "is the Health Ca-

reer Awards program under which the Stonewall County Chapter of the National Foundation is offering three \$100 scholarships for college work in medicine, nursing, physical and occupational therapy and medical social work in 1964."

Judy hopes there will be a real turnout of volunteers for TAP in Stonewall County to put the January March of Dimes over the top.

MANY NEW FEATURES ADDED TO '64-'65 TEXAS ALMANAC

Many new features in the 1964-1965 Texas Almanac, just published by The Dallas Morning News, have been added to material that has made this 106-year-old publication the "Encyclopedia of Texas."

Texts' increasing urbanization is emphasized in special pages containing photographs and comparative statistics for 21 metropolitan areas, including the cities of Abilene, Amarillo, Austin, Beaumont, Port Arthur, Corpus Christi, Brownsville, Harlingen, San Benito, Dallas, El Paso, Fort Worth, Galveston, Texas City, Houston, Laredo, Lubbock, Midland, Odessa, San Angelo, San Antonio, Texarkana, Tyler, Waco and Wichita Falls.

Maps of 254 counties and data on all counties and cities of Texas have been brought up to date, including population and other figures from the 1960 U. S. Census. New features are a County Economic Index, and maps showing leading Texas counties in production of crops and livestock.

Texas who like to brag will find ample ammunition in two pages showing the rank of Texas among other states, and in proportion of the United States total, in leading categories.

Other data appearing for the first time include carlot shipments of fruits and vegetables and added information on export-import trade.

Texas landmarks are listed by counties in a special section, revised through information obtained from authorities in county histories.

All Governors of Texas and Presidents of the Republic of Texas are pictured in the historical section.

Agricultural information has been completely revised, with the help of authorities of Texas.

District Court

E. B. Lee vs. Thomas Blanton Jr. Divorce granted.
Carolyn Ona Hill vs. James Edward Hill. Agreed Judgment.

Anna Mae Ferguson and Robert Ferguson as best friends of Ricky Ferguson vs. Stratton Bates \$250 damages as outgrowth of automobile accident in Stamford.

Mr. and Mrs. Gilbert Mokry and family of Taylor, visited in the home of Mr. and Mrs. W. I. Goolsby.

Mr. and Mrs. Dale Ray Helms visited in the home of her parents, Mr. and Mrs. Tom Pritchard, during the holidays.

BUE SAYS TOO MUCH STOCK, TOO LITTLE CASH — MUST SELL

Bue's in Stamford say they way overbought on Christmas stock and they have full wood cabinet, swivel console, 23 inch TV sets priced at \$189, on easy terms. Clock radios \$19.95, colored TV demonstrators that must sell, one lot of lamps \$1.98, pole lamps from \$7.95, all kinds of clocks.

Art wallpaper at sixty cents double roll, and from Jan. 2 through 11 a one cent sale on inside Latex paint — buy one gallon at \$3.95, one gallon for one cent. So many furniture bargains we can't name 'em — small wool rugs 98 cents. (ADV.)

By MRS. ELMER JOINER

Since the last report we most of the time, cloudy and have had some nice weather, cold, with a trace of snow on mixed with some real bad, but the ground. Any way we know this morning looks as it has the sun is still there and will

be out again, for it did before Christmas, when we had almost given up hope. Since bad weather always brings sickness, there has been quite a lot of people sick, none seriously, just colds and the like. We are glad to report that

Jack Gray is able to be home and on the road to recovery, after a long stay in the hospital, before and after gall bladder surgery. Mrs. Raleigh Bond is back in the hospital with bronchial trouble, which makes her second stay this winter.

We also were sorry to hear that our good friend, Mrs. T. T. Brady, of Hamlin, is also a patient, suffering from the flu. The Christmas program and tree, was held on Friday night before Christmas, with a fair crowd attending. Everyone there received a bag of fruit,

nuts and candy, and every one received a gift, so all had a good time, and went home believing in Santa Claus. On Sunday night of last week, Mr. and Mrs. E. A. Henry had their grandson, Boyd Henry, from Elgin, spending the night with them. He was

enroute to Higgins, to spend the holidays with his sister, Mr. and Mrs. Mack Sansing and little daughter. On the Friday night of the Christmas program, after it was over, Mr. and Mrs. H. L.

Ford, Mr. and Mrs. Winson Gray and Mr. and Mrs. Woodrow Goodwin, all went to visit with Mr. and Mrs. John Beachamp and Debra. Mr. and Mrs. Elmer Joiner celebrated Christmas early, having their family dinner and gift exchange on Sunday before Christmas. Mr. and Mrs. J. E. McCoy, Kay and Larry, Mr. and Mrs. Jimmy Joiner, Jeannie and Ronald, were on hand, but the Buck Joiner family, having to come from Odessa, failed to make it. They started on icy roads, but only got half way to Midland, and were forced to turn around and go back, as road conditions were getting worse and worse. It will be remembered that after a freezing rain the roads were glazed over and driving was very hazardous.

Mr. and Mrs. Marvin Johnson and sons, Amarillo, spent a week in the Hamlin area, with their parents, Monday, before Christmas they and her parents, Mr. and Mrs. Winson Gray went to Houston, where they spent the holidays with another daughter, Mr. and Mrs. Doll Bills and Jana. They all enjoyed their visit with the exception of Barry Johnson, who took the mumps while down there. Big Brother Bruce, had them two weeks before, so he wasn't too surprised.

Mr. and Mrs. John Beachamp and Debra, spent Christmas in Oklahoma, with her relatives. Mr. and Mrs. Joe Ford had seven of their nine living children home for Christmas dinner, there being 28 guests, in all. One son, Eudell, and a daughter, Inez, were unable to be there. Not knowing all of their names and addresses, could not give them, but do know they had a wonderful time all being together.

Guests of Mr. and Mrs. Fred Rosenbaum for Christmas, were Mr. and Mrs. Joe R. Rosenbaum, Pampa, and Mr. and Mrs. J. D. King, Midland. Mr. and Mrs. Flavil Holmes had their children and grandchildren, home for the big day. Mr. and Mrs. Jimmy Holmes and Melody Ann, Austin, spent the week with them in Abilene, visiting Mrs. Holmes' relatives. Mr. and Mrs. Jack Wright, Melinda and Keenan, joined them for Christmas dinner, as well as Sunday, again.

Mr. and Mrs. Elmer Joiner ate Christmas dinner with Mr. and Mrs. Woodrow Goodwin and Linda. We have some new neighbors in our community, as Mr. and Mrs. Joe Murff have moved into the home on the farm of Mrs. J. A. Rose.

Mr. and Mrs. Delbert Martindale and three little sons, visited Thursday morning with her uncle, Mr. and Mrs. Elmer Joiner. They were enroute home, which is Beeville, from Lubbock, where they had spent the holidays with her parents, Mr. and Mrs. Henry Kee.

Mr. and Mrs. Winson Gray accompanied by his parents, Mr. and Mrs. E. C. Gray of Anson, went to Clyde, Sunday, where they visited with Mr. Gray's cousin, Mr. and Mrs. Lee Hickerson.

Little Klemmy and Kristy Leverett were both sick Sunday, so they and Mrs. Leverett were absent from both services Sunday. Just bad news that Rev. Leverett is also in bed this Monday morning with a good cold which was developing yesterday.

The Leveretts spent Christmas in Abilene, with her mother, Mrs. Ellen Tanner and Larry. Also present were Rev. and Mrs. J. E. Bagley, Abilene, Mrs. Tanner's mother, and the Stanley Jackson family from Neinda. They came home Thursday and Mrs. Tanner came home with them and stayed until Saturday.

Word has been received that Mr. and Mrs. Watts have an other grandchild, this time a little girl born Dec. 21, to Mr. and Mrs. Roy Tom Watts.

by BOB CRAIG

Well, we made it through another year, didn't we? I don't know how much better we made the world during 1963 but at least it doesn't seem to be any worse. In this day and age that seems to be a pretty good accomplishment in itself.

As we go from one year to the next and from one world crisis to the next it sometimes seems that things never looked more bleak than at the moment, but when we look at it from a longer range we can usually see that it is no worse than it has been before.

No one knows what major crisis will face this nation during the coming year but what ever it may be will probably be no worse at the moment as they interfere with our day to day more or less carefree way of life.

Probably the two biggest problems facing the world today and America particularly — as the free world's leader — is worldwide trade and Human Rights.

Since it is obvious that these would not be major problems if they were simple cut and dried issues with easy answers you can get about as many answers to these problems as they are people to ask.

Both of these issues affect different people in different ways — the man whose prices are being hurt by imports does not see the problem the same way that one whose product must find new markets.

The biggest difference of opinion in this country today is probably in the matter of trade with the communist world. Like a lot of people we used to think that it was foolish to feed and supply your enemies, but after thinking about it we can see that probably our only hope is to trade with them.

We seem to have two choices with this problem, we can take the attitude of some and try to starve them out or we can help them to share in the abundance that we as a nation enjoy.

The biggest obstacle with trying to starve them out is that if we hurt them enough through restricted trade their leaders will get to the point that they will see only two avenues left for them, surrender or fight for the things their people want and need. And if their people are hungry they will fight.

It is somewhat like trying to back a dog into a corner and then trying to make friends with him — it is a good way to get bitten.

It is no wonder that we have trouble finding the answer to this question when we haven't found the answer to trading with our own friends and allies.

The problem with competing on the world market is the great difference in the standard of living between our country and the most of the rest of the world. We can no longer hold back the progress of the balance of the world just to maintain our standard of living and this seems to be what so many want to do.

We must help to raise the standard of living world-wide and in the process some in this country may have to lower theirs to the point where they are producing enough food to justify their income. This is a problem that unions seem to forget.

Many people seem to blame this import and export business for most of our unemployment problems. This, we do not believe, is the case. One of the major causes of our unemployment is again that too many people are not producing enough goods to justify their income and by doing this they force prices up to the point that they hurt the market and eliminate jobs. Another cause of unemployment, and this has a similar background, is the confused attitude of so many in what they do not want to go to the trouble of training for a profession or skill, they seem to prefer to live off their fellow.

Missionary Here
Sunday Evening

Dr. William Bray will speak at First Methodist Church on Sunday Evening, Jan. 5 at 7:30. Faith Methodist Church has been invited to join with us in this service. There will be a reception for Dr. Bray in the Fellowship Hall following the evening service.

Dr. Bray will speak to the Young People of the Stamford District at First Methodist Church in Haskell on Monday evening, Jan. 6 at 7:30.

Dr. and Mrs. Bray, Missionaries to Japan, have been supported by the Stamford District of the Methodist Church since 1952. They first went to Japan in August, 1952, after having been a pastor for six years, and a U. S. Army Air Force Chaplain during the second World War for three years. For the past ten years of service in Japan his official work has been in the Theological Seminary at Kwansei Gakuin University, where he is Professor of New Testament Literature and Language. In addition to his regular work at the University, they have been engaged in some direct evangelism, and have organized two new churches, one in Takarazuka City and one in Shukugawa City. The churches of the Stamford District have been helping in both of these projects. Dr. Bray has also served as Chairman of the Fellowship of Christian Missionaries in Japan.

NEINDA PHILOSOPHER NOT MAKING ANY
PLANS FOR '64, HAS PLENTY FROM PAST YEARS

Editor's Note: The Neinda Philosopher on his Johnson grass farm on Route 1 has entered a new year about like he left the old one, his letter this week indicates.

Dear editor:

Now that I've got a new calendar and can plainly see we're into 1964, I was sitting by the fire last night wondering if I shouldn't be making some plans for the new year, but I called it off.

I don't need any more new plans, I've got plenty left over from the last 12 or 15 years I haven't used yet.

Most people plan from the wrong end of the year, they

plan ahead while you can be a lot more accurate if you plan back. I can see now a lot clearer what I should have done last January than I can what I ought to be doing next December.

Oh I could make some detailed plans for this Johnson grass farm for the next twelve months all right, but how do I know what the unfolding international situation will do to them? A man can feel awkward trying to plug up holes in his own fence when the leaders of world are arguing there ought to be more holes opened in the Berlin wall. Patching holes willy-nilly is no longer a sound practice. The world is a delicately balanced outfit and a man has to be careful what he does. It used to be that whether a man got on his tractor and plowed was of absolutely no concern to anybody but himself, but have you ever stopped to think of the international repercussions plowing can have? Some hard-pressed country on the other side of the world will hear about it

and say, Look at him, plowing away to make another crop to add to the surplus and make us feel worse. And right when Washington was trying to gain their friendship.

Before I rush headlong into plowing in 1964 I'm going to think long and hard on what effect it'll have internationally. You're not going to catch me jumping on my tractor and upsetting the balance of world power.

I don't know what sort of year 1964 will be, but I have a notion it'll be about like all the other years that have gone before, and it seems to me most people have found them interesting enough to look forward to some more.

Yours faithfully,
J.A.

Most of Right of
Way Obtained for
Widening Hwy 277

With the exception of two small tracts, all right of way has been obtained for widening Highway 277 between Stamford and Anson to a modern freeway. The Texas Highway Department likely will ask bids early this year for the work.

A jury of view met Dec. 18 and again on Dec. 20 and set values on land belonging to six owners. A seventh, Guy Steen, will have to have his land valued at a later date as insufficient notice was given.

M. E. Carothers had been employed by the county commissioners court to obtain the necessary right of way and for the most part was successful in negotiating purchase. It was necessary to cite only seven owners in condemnation proceedings.

The county has posted money in the amount set by the jury of view and may proceed with whatever work is necessary on the land at this time. Land owners have 20 days to accept the award or appeal. One owner, Harry Frye, has picked up his check for \$400.

Other owners and the amount of their awards are as follows:

R. I. Foster, \$1,000 for .097 acre of land;
John Faulkner, \$1,200 for .089 acre of land;
Vernon Lovvorn, \$6,507 for two tracts, 14.966 and .294;
F. J. Gordon, \$2,029 for .234 acre;

Stock Show Rodeo

Fort Worth (Sp) — W. R. Watt, president-manager of the Southwestern Exposition and Fat Stock Show, is continuing with the successful combined producer arrangement pioneered with the 1963 Fort Worth Stock Show Rodeo.

Tommy Steiner-Hoss Inman and Associates will produce the 1964 Fort Worth Rodeo. The four producers represented in Steiner-Inman and Associates had a total of 51 animals selected for the National Finals Rodeo at Los Angeles in November. Contestants at the National Finals, the World Series of professional rodeo, select all the bucking stock to be used in the rodeo.

Headlining the 1964 rodeo stock at Fort Worth will be six Canadian bucking horses recently purchased by Steiner. The horses, now located at Steiner's N-S Bucking Stock Ranch near Austin, will make their first United States arena appearance at the Fort Worth Rodeo.

Canadian Godfredson, previous owner of the sextet, says the horses made quite a reputation for throwing respected Canadian cowboys not just once, but as much as three or four times a day.

The horses to look for at the Fort Worth Rodeo are: Rattlesnake, War Cloud, Scrap Iron, Firefly, Lookout and Skimiken John. Godfredson, who is part Indian, explained Skimiken John means "over the hill" in Indian lingo. The horse got the name from a cartoon movie, "Sword In The Stone". No purchase is required to receive a card and purchasers are favored in no way. Visitors may receive one card per store visit restricted to persons sixteen years and above. low man rather than put out this much effort. The man who makes a real good living working 32 hours a week has helped create this attitude, there just are not enough of these gray trains to go around.

All of this of course is a problem of human rights as well as world trade.

Probably the biggest problem facing this nation in the coming year will be the one of civil rights. The really sad part of this situation is that it is a problem in a country that is supposed to be a Christian nation and founded on the belief that all men are equal.

How can we say all men are equal and then deprive 10 per cent of our people of the right to vote, the right to an education, and the right to any job that they are qualified for?

Both of these problems are not just problems for the rest of the nation to solve, but the people of Hamlin must be a party to the answers.

Our agriculture products, our oil products, our livestock products, all are effected by what is done in dealing with the problem of world trade. Naturally we would like to export all of our goods to gain better markets and better

prices but at the same time realize that some goods must come into this country to create the money and the markets for some other goods and it may be that this will affect one or more of our products.

In the matter of civil rights here at home we will soon have to face the problem of education. We can continue to operate separate schools for only a short time. Not because somebody up in Washington says we can't but because we

can not afford too, and give any where near an equal education to the Negroes of our community. The way to solve this problem must be found by the people of Hamlin.

Rev. and Mrs. Fred Brown of Turkey, Texas visited friends in Hamlin Monday and Tuesday.

Mr. and Mrs. Bob Craig visited in the home of her parents, Mr. and Mrs. T. P. Fincher of Fort Griffin Christmas Day.

You have 639 muscles in your body. You can exercise and develop them for life-long health and vitality. Or you can live lazily and grow fat or flabby. And possibly become a premature victim of diseases of the heart and blood vessels.

There isn't a shadow of a doubt that physical well-being at all ages depends to a great extent on physical activity or exercise. But there's so little incentive to exercise now—what with push buttons and sedentary pastimes—that flabbiness begins in early childhood.

Yet, more than half of our children do not get at least 15 minutes of planned, vigorous, body-building activity during each school day! Consequently, nearly one-third of them can't meet minimum standards for strength, agility and flexibility.

The development of physical fitness—for all boys and all girls—should begin early in life.

What about the physical education program in your child's school? Is it planned mainly for students interested in varsity sports? Or is it geared to the development of average boys and girls—those most in need of physical conditioning?

The President's Council on Physical Fitness urges you to take as much interest in this phase of your child's development as you do in his academic development. Work with your school officials and community groups to establish a program that emphasizes vigorous activity daily. Bringing up youngsters with strong, agile bodies is essential to their future—and the future of our country.

To help you evaluate the program in your school, the President's Council on Physical Fitness will send you a free booklet. The address is Washington 25, D.C.

CREATION...

ISN'T IT AMAZING

... Scientists say that there are no two snowflakes alike! How many snowflakes do you suppose there have been since the beginning of time? Billions? It staggers the imagination when one thinks of all the things that God has created from nothing.

Genesis, the first book in the bible means beginning. It tells of many of God's more major creations, and how He created all these things for the benefit of man. Attend church, study God's word and learn more of God's plan for man.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

JEANNETTE GREEN AND TOMMY BROWN EXCHANGE VOWS HERE

The home of Mr. and Mrs. Carl Green was the scene of the wedding of their daughter, Jeannette, to Tommy Jay Brown, son of Mr. and Mrs. J. E. Brown.

The double ring ceremony was read by Rev. John Ferguson, pastor of Faith Methodist Church at 7:30 p.m. Dec. 20. Mrs. Dan Gallagher presented wedding music.

The bride, given in marriage by her father, wore a street length dress of white embroidered satin fashioned with fitted bodice, three quarter length sleeves, and around neckline enhanced with seed pearls. She carried a cascade arrangement of white feathered car-

nations and a white orchid atop a white lace Bible. For something old she carried a handkerchief made by her great-grandmother, the late Mrs. Charles Campbell of Oklahoma.

Mrs. O. E. Railsback of Vernon, aunt of the bride and Don Poe Brown, brother of the bridegroom, were the only attendants.

Mrs. Elmo Painter and Miss Paula Kim served during the reception which followed.

For a wedding trip to Shreveport, La., the bride wore a blue two piece suit with small blue hat and black accessories. Her corsage was the orchid from her bride bouquet.

The bridegroom was graduated from high school here in 1963 and is now attending Ranger Junior College, Ranger.

The former Miss Green attended Hamlin High School where she was a majorette.

The couple will reside in Ranger where both will continue their studies.

Tips on Buying Given by County Agent Newberry

Tested techniques for good buymanship—including knowledge of what, when and where to buy—can save money, energy and time for busy homemakers.

Research has disclosed that the buying techniques apply to the purchase of food, clothing or household equipment, Mary Y. Maberry, Jones County Home Demonstration Agent, reminds.

The tested techniques, that Jones County women will want to look for are:

Compare values. What appears to be the same may differ greatly.

Select basic styles. There's more mileage in styles which do not change abruptly.

Buy on the basic of use. If you need it for salad or soup and buy accordingly.

Buy by grade. Top grade in some products may compare with second in others.

Stick to middle prices. The item may have the same quality as top price, with less trimming.

Shop for brands. Sometimes less than nationally advertised brand are more costly.

Check ingredients. Products with same ingredients may differ in price.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. — Pres. Lyndon Johnson's holidays would exhaust most ordinary mortals. The President arrived in Austin on Christmas Eve, his homecoming delayed by a congressional crisis over the \$3,000,000 foreign aid bill. Abandoning his announced schedule he went to the Governor's Mansion for a 30-minute visit with Gov. John Connally.

Stopping his party's helicopter at a ranch of another close friend, A. W. Moursund, the President joined Moursund in an hour deer hunting, before he finally got home to hang up his Christmas stockings. There he spent a happy time with his family and relatives and numerous close friends.

Christmas Day at the LBJ Ranch also found the President confronted with problems. He expressed concern over the fighting in Cyprus, penned messages to Greek and Turkey Cypriot leaders and General Cemal Gursel, President of the Republic of Turkey.

Then he took newsmen on a tour of his ranch, handed them ashtrays as presents, and explained a cut he had just ordered in federal employment.

All this he did before setting down to his Christmas dinner and the opening of pres-

ents under the tree.

Before dawn the next day, he and former Gov. Buford Ellington of Tennessee left "The Little White House" on a deer hunt. Both bagged bucks.

The President was back at the ranch house, working in his office, before noon and conferred with Secretary of State Dean Rusk by telephone, repeatedly, on the Cyprus crisis.

Later, he named a nine-member committee of experts to evaluate foreign economic and military aid programs and recommended how to strengthen them.

In doing his home work for the important Erhard visit, Johnson conferred in person with these distinguished government officials at the ranch: Secretary Rusk, Under Secretary of State George W. Ball, Special Ambassador Christian Herter, Agriculture Secretary Douglas Freeman and McGeorge Bundy, special assistant for national security affairs.

Theodore Sorenson, special White House counsel, was summoned to assist in preparation of the new President's first state of the union message. It will be delivered before the Congress on January 8.

Thomas C. Mann, assistant secretary of state for inter-American affairs, and John A. McCone, Central Intelligence Agency director, were among others called to confer with the President, in addition to regular staff members.

Press members from Washington and foreign countries, as well as the native Texans of the State capital beat, were invited back to talk and eat with the President on Friday.

In addition to official talks, there was a program of fun for Chancellor Erhard, a partly ex-professor. He toured Fredericksburg, home of many German-speaking Texans, and attended church at Bethany Lutheran Church there Sunday. More than 200 turned out for a barbecue luncheon honoring the Chancellor at the Stonewall High School gymnasium three miles from the ranch.

When Erhard departed, Johnson turned immediately back to the national budget and went into a huddle Monday with Defense Secretary Robert S. McNamara and the joint chiefs of staff.

So it went as the President wound up his "holiday" and prepared to return to the regular schedule in Washington.

PRESS COVERAGE — For many years, Austin's stately Driskill Hotel has been President Johnson's home away from home. Now it is the home away from home for some 75 to 200 news reporters. They "cover" the White House, whether it is on the Potomac

of the Pedernales.

The Crystal Ballroom, usually the setting for brilliant Christmas and New Year's balls, has been a working pressroom during the 1963 holiday season. The "Press Center" covers the hotel's mezzanine and extends to quarters occupied by White House Press Secretary Pierre Salinger and his staff.

In the Driskill, the press corps waits for word of cuts in federal employment, the President's luck at hunting, statements on Cyprus and on repercussions from his meeting with Chancellor Ludwig Erhard of West Germany.

At times, the news from Johnson's LBJ Ranch near Stonewall is delivered via a "press pool", in which four reporters are assigned to represent all their colleagues. Other times, the whole corps is bundled into buses for the trip to the ranch over U. S. 290 and the newly-designated Ranch Road No. 1.

Some of the press-center set-up will remain intact in the Driskill Hotel for presidential visits in the future. This may be for the next year, or the next five years, or, perhaps, the next nine years, according to voters' reactions to the news that this army of reporters turn out.

ANIMAL HEALTH APPOINTMENTS — During his convalescent period in the Mansion, Governor Connally picked two new members for the Texas Animal Health Commission to succeed Dr. Robert Hartman of Victoria and George Apple of McKinney.

New commissioners are Dr. J. Ray Martin of Coleman and C. E. (Ed) Knoll of Sandia. Dr. Martin, a graduate of the Veterinary School at Texas A&M, has practiced veterinary medicine in Coleman since 1946.

Knoll is co-owner of Knoll's Jersey Farms in Jim Wells and Nueces counties. A university ex-student, he is past president of the Texas Jersey Cattle Club.

SCHOOL DROP-OUTS — During the holidays Governor Connally has been Texas' second biggest newsmaker (second to President Johnson). He stirred a lot of interest when he turned attention to what is considered by many to be the state's first problem: school drop-outs.

Connally asked the Texas Education Agency to develop a plan for pilot programs to help local districts find solutions to the drop-out situation. He described it as "one of our most severe educational and economic problems."

According to the Governor, "Last June, Texas high schools graduated only 87,640 of the 155,032 first-graders who entered school in 1951. Nearly 69,000 dropped out before reaching the 9th grade and 50,000 left between the 9th grade and graduation."

Connally quoted a Texas Employment Commission prediction that by 1965, the nation will have three young people without high school diplomas chasing after every two jobs available to them, while there will be only five high school graduates available for every seven jobs requiring that much education.

LOAN OFFICES LICENSED — Regulatory Loan Com-

missioner Frank Miskell issued a total of 1,630 licenses to be displayed by consumer credit companies which make loans up to \$1500. Licensing was the first major step under Texas Regulatory Loan Act which went into full effect on December 21.

All of these licensees — ranging from a single lender in New Boston to a 60-office Family Finance chain — now will be under state supervision. A lot of "loan sharks" who could not, or would not, meet the new state requirements were flushed out by passing of the law.

Loan lobbyists estimated earlier in the year that there were 2,200 loan offices in the state, but only 1,895 filed letters of intent to file application for a license. Then some 255 never followed their letters with applications.

Commissioner Miskell refused to license 30 applicants, and nine of these have suits against the state pending in

federal and state courts.

SLANT - HOLES SUMS RECOVERED — Atty. Gen. Waggoner Carr announced the recovery of \$110,000 from two defendants accused of slant-hole oil well operations.

Of this, \$10,000 was recovered from G. M. Jordan of Kilgore, following a judgment entered by 53rd District Judge Herman Jones, and \$100,000 from J. G. Walker of Tyler, charged with operating wells illegally.

Carr said the money will be placed in the State Treasury.

MOTORISTS WARNED — Col. Homer Garrison Jr., director of the Texas Department of Public Safety, issued a special warning to car owners that tough NEW amendments to the Texas safety responsibility law become effective on January 1.

Amendments require that drivers prove their ability to pay damage to others in traffic accidents. All accidents resulting in \$100 or more dam-

age, injury or death must be reported in writing to the DPS within 10 days. Accidents not involving death or injury and resulting in as much as \$25 in damages also must be reported. But these do not come under the safety responsibility law.

Minimum requirements are \$10,000 covering liability for one person; \$20,000 for two or more persons; and \$5,000 property damage. Otherwise they must estimate financial responsibility, if they are at fault.

Suspension of licenses and registration will be for a period of two years unless requirements of the safety responsibility act are fully met.

SHORT SNORTS — Texas public cafeterias will serve 2,400,000 pounds of chicken in months ahead. This is Texas' share of 50,000,000 pounds bought by the U. S. Department of Agriculture with school lunch funds.

O. J. McCullough, Houston

tool manufacturer, has applied Association for the Advancement of a charter for the National ment of White People.

For a child or an adult to achieve properly and efficiently they must have good vision. Only a vision specialist giving a thorough examination can determine your visual needs. A thorough examination takes time.

Each year the classes in Old Glory School compete in a door decoration contest. This year all of the doors were outstanding and offered a good variety of Christmas themes.

The Sophomores won the high school contest this year with their well-decorated replica of the Christmas carol, Joy to the World. The craftsmanship of the winning door was extremely well done. Second place door was the Seniors' entry of a red Christmas package on a red and silver background.

The grade school was won by Mrs. Bell's 1st and 2nd

grade room. Then manger scene, with figurines and angels was presented against a blue background with soft blue lighting. The 7th and 8th grade door won second with a colorful door showing Santa, an outdoor Christmas tree, and a mailbox.

The 1964 March of Dimes Campaign for Stonewall County will be largely in the hands of teen-agers. Directing the campaign will be Brenda Dalby for Aspermont, Carolyn

Sander for Old Glory and Perry Workman for Peacock. Judy White is county teen-age chairman.

"Teenagers have the desire to help the helpless and the enthusiasm to raise money to finance it" according to Judy White. "Teen-agers are urged to contact the director of your area or if the director contacts you, give them all the help you can."

"We teen-agers often see people our own age suffering from some kind of crippling disease" Judy said. "This gives a great incentive to work for a program like the March of Dimes which is doing something to help improve the future of birth defect and arthritis victims."

"Many March of Dimes-financed treatment centers where thousands of children and teen-agers are already benefiting from improved techniques of treatment are found throughout the United States. Effective January 1, 1964 two

new March of Dimes Chapter Supported Special Treatment Centers will be added to serve the State of Texas, a Birth Defects Center at John Sealy Hospital in Galveston and an Arthritis Center at Texas Children's Center, Baylor University Medical School, Houston, Texas.

"Of special interest to teen-agers in Stonewall County," Judy stated, "is the Health Care

reer Awards program under which the Stonewall County Chapter of the National Foundation is offering three \$100 scholarships for college work in medicine, nursing, physical and occupational therapy and medical social work in 1964."

Judy hopes there will be a real turnout of volunteers for TAP in Stonewall County to put the January March of Dimes over the top.

MANY NEW FEATURES ADDED TO '64-'65 TEXAS ALMANAC

Many new features in the 1964-1965 Texas Almanac, just published by The Dallas Morning News, have been added to material that has made this 106-year-old publication the "Encyclopedia of Texas."

Texts' increasing urbanization is emphasized in special pages containing photographs and comparative statistics for 21 metropolitan areas, including the cities of Abilene, Amarillo, Austin, Beaumont, Port Arthur, Corpus Christi, Brownsville, Harlingen, San Benito, Dallas, El Paso, Fort Worth, Galveston, Texas City, Houston, Laredo, Lubbock, Midland, Odessa, San Angelo, San Antonio, Texarkana, Tyler, Waco and Wichita Falls.

Maps of 254 counties and data on all counties and cities of Texas have been brought up to date, including population and other figures from the 1960 U. S. Census. New features are a County Economic Index, and maps showing leading Texas counties in production of crops and livestock.

Texas who like to brag will find ample ammunition in two pages showing the rank of Texas among other states, and in proportion of the United States total, in leading categories.

Other data appearing for the first time include carlot shipments of fruits and vegetables and added information on export-import trade.

Texas landmarks are listed by counties in a special section, revised through information obtained from authorities in county histories.

All Governors of Texas and Presidents of the Republic of Texas are pictured in the historical section.

Agricultural information has been completely revised, with the help of authorities of Texas.

By MRS. ELMER JOINER

Since the last report we have had some nice weather, cold, with a trace of snow on mixed with some real bad, but the ground. Any way we know this morning looks as if the sun is still there and will

be out again, for it did before Christmas, when we had almost given up hope.

Since bad weather always brings sickness, there has been quite a lot of people sick, none seriously, just colds and the like.

We are glad to report that

Jack Gray is able to be home and on the road to recovery, after a long stay in the hospital, before and after gall bladder surgery.

Mrs. Raleigh Bond is back in the hospital with bronchial trouble, which makes her second stay this winter.

We also were sorry to hear that our good friend, Mrs. T. T. Brady, of Hamlin, is also a patient, suffering from the flu.

The Christmas program and tree, was held on Friday night before Christmas, with a fair crowd attending. Everyone there received a bag of fruit,

nuts and candy, and every one received a gift, so all had a good time, and went home believing in Santa Claus.

On Sunday night of last week, Mr. and Mrs. E. A. Henry had their grandson, Boyd Henry, from Elgin, spending the night with them. He was

enroute to Higgins, to spend the holidays with his sister, Mr. and Mrs. Mack Samsing and little daughter.

On the Friday night of the Christmas program, after it was over, Mr. and Mrs. H. L.

Ford, Mr. and Mrs. Winslow Gray and Mr. and Mrs. Woodrow Goodwin, all went to visit with Mr. and Mrs. John Beauchamp and Debra.

Mr. and Mrs. Elmer Joiner celebrated Christmas early, having their family dinner and gift exchange on Sunday before Christmas. Mr. and Mrs. J. E. McCoy, Kay and Larry, Mr. and Mrs. Jimmy Joiner, Jeannie and Ronald, were on hand, but the Elmer Joiner family, having to come from Odessa, failed to make it. They started on icy roads, but only got half way to Midland, and were forced to turn around and go back, as road conditions were getting worse and worse. It will be remembered that after a freezing rain the roads were glazed over and driving was very hazardous.

Mr. and Mrs. Marvin Johnson and sons, Amarillo, spent a week in the Hamlin area, with their parents, Monday, before Christmas they and her parents, Mr. and Mrs. Winslow Gray, went to Houston, where they spent the holidays with another daughter, Mr. and Mrs. Earl Huls and Jane. They all enjoyed their visit with the exception of Barry Johnson, who took the mumps while down there. Big brother Bruce, had them two weeks before, so he wasn't too surprised.

Mr. and Mrs. John Beauchamp and Dabra, spent Christmas in Oklahoma, with her relatives.

Mr. and Mrs. Joe Ford had seven of their nine living children home for Christmas dinner, there being 28 guests, in all. One son, Eudell, and a daughter, Inez, were unable to be there. Not knowing all of their names and addresses, could not give them, but do know they had a wonderful time all being together.

Guests of Mr. and Mrs. Fred Rosenbaum for Christmas, were Mr. and Mrs. Joe R. Rosenbaum, Pampa, and Mr. and Mrs. J. D. King, Midland.

Mr. and Mrs. Flavil Holmes had their children and grandchildren, home for the big day. Mr. and Mrs. Jimmy Holmes and Melody Ann, Austin, spent the week with them in Abilene, visiting Mrs. Holmes' relatives. Mr. and Mrs. Jack Wright, Melinda and Keenan, joined them for Christmas dinner, as well as Sunday, again.

Mr. and Mrs. Elmer Joiner ate Christmas dinner with Mr. and Mrs. Woodrow Goodwin and Linda.

We have some new neighbors in our community, as Mr. and Mrs. Joe Murf have moved into the house on the farm of Mrs. J. A. Rose.

Mr. and Mrs. Delbert Martindale and three little sons, visited Thursday morning with her uncle, Mr. and Mrs. Elmer Joiner. They were enroute home, which is Beeville, from Lubbock, where they had spent the holidays with her parents, Mr. and Mrs. Henry Kee.

Mr. and Mrs. Winslow Gray accompanied by his parents, Mr. and Mrs. E. C. Gray of Anson, went to Clyde, Sunday, where they visited with Mr. Gray's cousin, Mr. and Mrs. Lee Hickerson.

Little Jimmy and Kristy Leverett were both sick Sunday, so they and Mrs. Leverett were absent from both services Sunday. Just bad news that Rev. Leverett is also in bed this Monday morning with a good cold which was developing yesterday.

The Leveretts spent Christmas in Abilene, with her mother, Mrs. Ellen Tanner and Larry. Also present were Rev. and Mrs. J. E. Bagley, Abilene, Mrs. Tanner's mother, and the Stanley Jackson family from Neida. They came home Thursday and Mrs. Tanner came home with them and stayed until Saturday.

Word has been received that Mr. and Mrs. Watts have another grandchild, this time a little girl born Dec. 21, to Mr. and Mrs. Roy Tom Watts.
